

# INNOVATIVE RESEARCH & DEVELOPMENT AWARD

## Fecha de cierre

The award is held every 2 years.

## Plazo de ejecución

Not specific.

## Financiamiento

Total Prize Value is \$200,000 and is distributed as follows: 1st Place: \$100,000; 2nd Place: \$60,000; 3rd Place: \$40,000

## Dirigido a

Individuals or teams from non-profit, educational and academic institutions and research centres that are independent or annexed to governmental or semi-governmental organisations.

## Objetivo

The project submitted by the applicant must be an innovative and prototyped, piloted or deployed solution, with the ability to demonstrate measurable results. The project must be developed and executed by the applicant with the aim of extracting safe drinking water from natural sources in line with World Health Organisation (WHO) guidelines. The project should be able to operate exclusively on renewable energy once deployed in the field without affecting its economic viability. The project should preferably be a solution that is easily installed, operated and maintained without the need for highly specialised skills and tools and should be able to operate reliably in different and harsh ambient conditions, using low cost and maintenance friendly technology.
