

ENGINEERING INFORMATION FOUNDATION

Fecha de cierre

February 28, August 31

Plazo de ejecución

1 year

Financiamiento

We suggest that you request a grant amount between \$5,000 and \$25,000. We encourage you to attract a matching grant from another source, if necessary. Requests for multi-year grants are discouraged.

Dirigido a

Our mission is to improve worldwide engineering education and practice through information technology and the recruitment of women. Our grant activity supports developmental projects, instructional projects, and training programs in engineering education and research that fit our fields of interest. These currently include the availability and use of published information, women in engineering, and information access in developing countries.

Objetivo

Educational and research programs that advance the more effective use of information in engineering and applied science, with special emphasis on learning communication skills.

Special area of interest:

Information Access in Developing Countries

The need for access to engineering resources as well as the skills to use the information effectively is of increasing importance as countries move along in their technological development. Special consideration will be given to projects to improve access to engineering information for students and faculty of educational institutions in developing countries.

Women in Engineering - Projects Directed by Engineering Educators.
