

# INSTITUTE OF FOOD TECHNOLOGISTS

## Fecha de cierre

Applications will be accepted online through August 1.

## Plazo de ejecución

No especifica

## Financiamiento

The Challenge will provide three levels of awards to incentivize transformative food system innovations at different stages of their development: Seed Grants (\$25,000 each), Growth Grants (\$100,000 each), Seeding The Future Grand Prizes (\$250,000 each)

## Dirigido a

The following organizations are eligible to compete in the Challenge:

Non-profits located in any country

Academic or research institutions located in any country

Early-stage or emerging U.S. or European based for-profit companies ('small companies')

Individuals are not eligible to apply. Please note, however, that teams of students or researchers may participate as part of an organization's submission.

## Objetivo

Hosted by the Institute of Food Technologists and funded by the Seeding The Future Foundation, the Challenge is intended to support innovations that have the potential for significant impact at scale and over time, and benefit at least one or more of the following intersecting domains: nutritious food for a healthy diet; sustainably produced; and accessible, appealing, affordable, and trusted by consumers.
