

SIMONS FOUNDATION

Fecha de cierre

The deadline is rolling and an LOI can be submitted at any time.

Plazo de ejecución

Can be submitted at any time.

Financiamiento

The funding level and duration is flexible and should be appropriate based on the type of support requested in the proposal. There is no recommended or assumed funding level for this program.

Dirigido a

The program is intended to support high-risk theoretical mathematics, physics and computer science projects of exceptional promise and scientific importance on a case-by-case basis. Applications may be submitted by established U.S. and foreign public and private educational institutions and stand-alone research centers. PIs and co-Investigators must have a Ph.D. and a tenure-track or tenured position at said institutions or centers at the time of application.

Objetivo

The Simons Foundation's Mathematics and Physical Sciences division invites proposals for its Simons Symposia series, which brings together mathematicians, theoretical physicists and theoretical computer scientists to interact and collaborate in a series of three symposia, held every two years and focusing on one topic or a tightly connected group of topics.
